---

## Objective

Aspiring Laravel developer with hands-on experience in creating a fully functional eCommerce website using Laravel, AJAX, and JSON. Skilled in backend and frontend development with a passion for building scalable, user-friendly web applications. Seeking an opportunity to apply my expertise and grow within a dynamic team.

---

## Skills

- **Backend Development:** Laravel 11, PHP, WordPress Development (Theme & Plugin customization)
  - **Frontend Technologies:** HTML, Tailwindcss, JavaScript, WordPress page builders (Elementor)
  - **API Development:** JSON, RESTful APIs
  - **Database Management:** MySQL
  - **Dynamic Content Loading:** AJAX
  - **Version Control:** Git, GitHub
  - **Tools:** Composer, Postman
- 

## Projects

### Book Review App

Technologies: Laravel 11, RESTful API, MySQL, Bootstrap, Javascript

Developed a Book Review web application using Laravel REST API.

Implemented user authentication, book listing, and dynamic review functionality.

Integrated Bootstrap frontend with API endpoints to display books, reviews, and related suggestions.

Focused on clean API design, dynamic content loading, and secure data handling.
